EDUCATION

IIITDM Kancheepuram – Integrated Dual Degree (B.Tech + M.Tech) in CSE **CGPA: 9.32/10 (Sem 4)** | Expected 2029
Highest CGPA in CSE cohort | *Relevant:* DSA, OOP, DBMS, Design & Analysis of Algorithms

Velammal Matriculation Hr. Sec. School, Chennai – Higher Secondary (Class XII) **97.33%** | 2024

EXPERIENCE

Artificial Intelligence Intern | *Random Walk*, Chennai Jun 2026 – Aug 2026
TypeScript, Three.js, MediaPipe, Gaussian Splatting, FastAPI, Modal, Docker | doppel-rw.vercel.app

- Built **Project Doppler**: a webcam tracks the viewer's head and the screen re-renders a **3D Gaussian-splat scene** from their viewpoint, so the monitor behaves like a window.
- Wrote the head-tracking (**MediaPipe** + One-Euro filter) and off-axis projection maths in TypeScript, with tests against the Python reference.
- Built the photo-to-3D service: **FastAPI** gateway to a GPU worker on **Modal**, with caching, request de-duplication and API-key auth.

Founding Engineer | *Promptli*, Toronto (remote, part-time) Feb 2026 – Sep 2026
LiveKit, OpenAI Realtime, Twilio SIP, Convex, Cal.com, AWS Lightsail, Docker | promptli.com

- Built a **voice-AI receptionist** on **LiveKit Agents** and the **OpenAI Realtime API** that answers and places phone calls over Twilio SIP.
- Added **14 function-calling tools** (booking, rescheduling, knowledge search, escalation to a human) wired into self-hosted Cal.com; 4 outbound call modes with per-tenant prompts.
- Designed the **Convex** data layer (21 tables, vector search) and automated per-tenant **AWS Lightsail** deployments with Docker Compose.

Software Developer Intern | *Artly Creative Labs* (ReelCat) Jan 2026 – Feb 2026
React, TypeScript, Remotion, AWS Lambda, Convex, React Native (Expo)

- Built **ReelCat**, a video-editing SaaS; moved rendering to **Remotion on AWS Lambda**, cutting render time by **60%**.
- Integrated auth, payments (Dodo), analytics (PostHog) and real-time sync (Convex); started the **Expo** mobile app.

Lead Full-Stack Developer | *E-Summit '26, IIITDM Kancheepuram* Jan 2026 – Feb 2026
Next.js, TypeScript, PostgreSQL, Supabase, Redis, Vercel | github.com/YashvanthSankar/esummit26

- Solely built the official event platform (**194 commits**): **12,000+** page views, **1,000+** concurrent users, zero downtime.
- QR ticket check-in with **Redis** at **sub-100 ms** for **1,000+ attendees**; admin dashboard, Row Level Security, Google OAuth, PWA.

PROJECTS

choco.video – Turns long videos into short clips, on-device, for macOS (open source) *Rust, Tauri 2, Svelte 5, whisper.cpp, FFmpeg*

- **Rust** engine transcribes, picks the best moments (BM25 + LLM scoring), tracks the speaker's face and renders captioned 9:16 clips; a 48-min interview → 4 clips in 226 s on an M3 Pro.
- Hardware-encoder failover, CI on macOS and Windows with snapshot tests, signed DMG with auto-update. chcvd.vercel.app

GudTour – Multilingual disaster alerts for tourists, Android + iOS *Expo, React Native, Convex, TypeScript*

- One Expo codebase shipped as native Android and iOS apps; ingests official **NDMA** alert feeds and delivers them by location in six languages; **308 automated tests**. **Placed at CS Week 2026**.

Sagar Prahari – Official app of *Swachh Sagar, Surakshit Sagar 5.0* (MoES / NIOT) *Expo, Convex, TypeScript*

- Built the core of the Govt. of India campaign app on the Play Store: OTP login, event registration, nearest-beach suggestions, photo + location attendance. Campaign ran 12–19 Sep 2026: **231 cleanups**, **13 states**, **15 lakh pledges**.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, Python, Rust, Swift, SQL, C++
Frontend: React, Next.js, React Native (Expo), Svelte, Tauri, Tailwind CSS, Three.js / WebGL
Backend & AI: Node.js, Express, FastAPI, Convex, LiveKit Agents, OpenAI / Groq / Gemini, RAG, whisper.cpp, Zod, BullMQ, WebSockets
Data: PostgreSQL, Supabase, Prisma, MongoDB, Redis, Convex
Infra & Tools: Git, Docker, AWS (EC2, Lambda, Lightsail), Vercel, Cloudflare, Modal, nginx, FFmpeg, Playwright, Linux

ACHIEVEMENTS & LEADERSHIP

- **1st Place**, Innovation Unbound at TechnoVIT '26, VIT Chennai – **SuperFinz**, a financial-resilience platform for gig workers built in 24 h on iOS, Android and web, on a Temenos problem statement, ahead of **150+ teams**
- **Placed**, CS Week 2026 (Bits and Bytes), IIITDM Kancheepuram – **GudTour** | **2nd Place** (RetailTech/SaaS), **Top 28** of **750+ teams** at VOID:V1 | **Top 100** of **2,000+ teams** at Sprintathon '25
- **Solely conducted** E-Summit '26 Hackathon & Ideathon – **600 participants** from **50+ colleges**, highest external turnout in event history
- **Highest CGPA** in the CSE dual-degree cohort in year 2, **2nd highest** in year 1 | **97.95 percentile**, JEE Main 2024 | **1st Place** in 3 club hackathons, IIITDMK
